Dear Julia:

On behalf of the Exhibits Committee, I want to take this opportunity to formally thank you for promoting the collections of MSU Libraries through your 1-West display, *Unidentified Flying Objects: Flying Saucers, Little Green Men, and Other Extraterrestrial Subjects*, an engaging treatment of the science and mythology surrounding UFOs, produced in collaboration with Emily Sanford. Exhibits that connect with popular culture quite naturally attract increased patron interest, so this was a winning theme. The eye-catching title banner and numerous visuals—including 3-D-printed aliens and spaceships—were definitely attention-grabbing!

Exhibits are truly a valuable service to the MSU Libraries. Thank you for your voluntary participation in this unique scholarly/creative activity that greatly enhances the Library as “place.” I look forward to future installations!

Sincerely,
