

2021 Depository Library Council

Virtual Meeting

Visualizing Deposit of Digital Content by GPO

Use Case Interviews

Use Cases

10 interviews with 14 participants

- Collaborative Organization
- Consortium
- Digital Preservation Steward
- Preservation Steward
- Regional Depository Libraries
- Selective Depository Libraries
- Academic Library
- Law Library
- Public Library
- State Library
- Tribal College Library

Interview Questions

1. What content would your library be most interested in receiving from GPO? For example, the latest hearings or maps for your geographic region.
2. How would you envision the selection process?
3. How would you make digital content accessible to the public?
4. What would be the optimal mechanics of digital deposit (push/pull) for your library?
5. Would your library be interested in receiving physical formats (e.g., DVDs) of digital objects for offline digital access?

Interview Questions

(Continued)

6. What kind of support/resources (technical, human, etc.) do you think your library might need? What support/resources/infrastructure/staff are already in place at your library that would facilitate digital deposit?
7. What do you see as potential FDLP requirements (conceptually similar to tangible materials or different in some way in terms of collection management, GPO support, etc.)? What would be prohibitive to your library receiving files on digital deposit?
8. Is there any other information or thoughts you'd like to share that we haven't already discussed?
